Upgrade to the Latest Premium Version

We continuously improve our software to meet the growing demands of retail and hospitality businesses.

If you are currently using a Demo Version or an older release, we strongly recommend upgrading to the latest Premium Version to benefit from the newest features, hardware integrations, performance enhancements, and ongoing product developments.

Professional Premium Version

The latest Premium Version provides advanced functionality and professional integrations designed for retail stores, supermarkets, hospitality businesses, and multi-location environments.

Available Features and Integrations

Cash Safe / Cash Exchange Machine Integration

Support for external cash safes and automated cash exchange systems for secure and efficient cash handling.

Self-Checkout / Self-Scan POS

Integration with self-service checkout solutions, allowing customers to scan and pay independently.

Self-Order Kiosk Integration

Support for self-order kiosks in hospitality environments, with direct communication to kitchen and bar workflows.

Premium Features

- Advanced reporting and business analytics
- Extended hardware integrations
- Multi-user and multi-terminal management
- Real-time inventory management
- Customer display support
- Barcode scanning
- Digital price label integration

Sales verkoop@proKassa.nl

Is there anything that can be improved? feedback@winkassa.nl

- Priority technical support
- Retail and hospitality functionality
- Multi-location support

Performance & Reliability

The latest version includes ongoing improvements in:

- Transaction processing speed
- System stability
- Database performance
- Hardware compatibility
- Overall system reliability

Demo Users

Demo users are encouraged to contact us to receive information about upgrading to the latest Premium Version and unlocking all available professional features and integrations.
